Prompt Engineering for Web Developers

Intro to Claude AI

Vibe Coding with Cursor AI

Apr 24, 2026

Sanjai G

has successfully completed the online Specialization

Generative AI for Web Development

In this specialization, learners have developed practical skills for using generative AI throughout the web development process. They have learned how to prompt large language models effectively, generate and debug code with AI support, and design interactive applications that integrate intelligent features using tools like Claude AI and Cursor. Through hands-on projects, learners have demonstrated their ability to code more efficiently and build AI-powered web experiences that reflect modern development workflows.

CEO at Scrimba

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
